| Comments: | | | |
| <ol style="list-style-type: none"> The HON Company complies with the Federal Trade Commission's Part 260 <i>Guide for the Use of Environmental Marketing Claims</i>. Product recyclability depends on local programs. The HON Company encourages the use of bulk packaging and blanket wrap where appropriate. Adding 50% of the post-industrial recycled content and 100% of the post-consumer recycled content and then dividing the resulting weight by the total weight of the product derives the value factor. Multiplying the value factor by the total purchase price of the product determines the product's contribution toward the Project's recycled content threshold. | | | |
| Section 3. Process Description | | | |
| <ul style="list-style-type: none"> Formed steel components are painted using a thermo-set powder coat. The components are assembled using mechanical fasteners.
