Comments:			
<ol style="list-style-type: none"> The HON Company complies with the Federal Trade Commission's Part 260 <i>Guide for the Use of Environmental Marketing Claims</i>. Product recyclability depends on local programs. The HON Company encourages the use of bulk packaging and blanket wrap where appropriate. Adding 50% of the post-industrial recycled content and 100% of the post-consumer recycled content and then dividing the resulting weight by the total weight of the product derives the value factor. Multiplying the value factor by the total purchase price of the product determines the product's contribution toward the Project's recycled content threshold. 			
Section 3. Process Description			
Hardwood veneer is adhered to particle board panels using PVA. Vinyl covered particle board drawer boxes are assembled and glued using white glue and hot melt adhesive. Components are assembled using mechanical fasteners. Unit is placed in corrugated carton for shipment to end user.
